- Bulk production up to 1 kg

InVivo BioTech Services GmbH is a leading European biomanufacturer with ISO 9001 and ISO 13485 certification. We have been a Bruker company since 2017.

For more than 25 years, InVivo has been committed to supporting academics and industries with our competence, expertise, and reliable products.

We're here to support you and give you the confidence to bring your ideas to life with greater efficiency.

Isotype controls are essential reagents used in flow cytometry and immunoassays to differentiate non-specific background signals from true antigen-specific bindings. By matching the antibody class, subclass, and labeling, they ensure the accuracy and reliability of your experimental results.
